

**BRITISH DROP
BENTON AFFAIR.**

Inquiry Made Futile by the
Bryan Disfranch Policy.

Humble as Uriah Heep in
Dealing With Rebels.

Consul Perceval Ready to
Return to Galveston.

(BY WIRE NEWS—EXCLUSIVE DISPATCH.)
JAMES, March 7.—Apparently
discouraged by the exhibition of sheer
weakness on the part of the Washing-
ton officials in attempting to cope with
Latin diplomacy and hopeless of ever
being able to elicit the true facts
regarding the assassination of William
B. Benton, the international commis-
sioner appointed to probe the facts, an-
nounced this afternoon that no further
investigation would be made at this
time.

British Consul Perceval also an-
nounced that he had finished his mis-
sion and was ready to leave for Gal-
veston on the first train, provided he
received orders from his government
in time.

Although neither Perceval nor any
member of the commission would talk
for publication, their conversation
indicated that they had been outma-
neuvred by the failure of the Ameri-
can State Department to uphold their
hands in demanding facts thus far
denied.

Earlier, the humble request of
Secretary Bryan that Gen. Villa per-
mit Mrs. Benton to remove the body
of her husband was answered by
Colonel Gomez this morning in terms
that cannot be mistaken and the
Constitutionalist officials declared
this afternoon that the Benton mat-
ter was a closed incident.

Those who did not feel inclined to
take the word of Villa, could do other-
wise, as far as the rebels were con-
cerned, they said.

After visiting the homes of more
than twenty absent owners in order
to afford shelter for Gen. Carranza
and the government officials, word was
received this afternoon that the "first
chief" would not go directly to Chi-
huahua, but would tarry on the border
of Sonora and Chihuahua "for a
while." The meaning of this move-
ment is not understood here, as Villa
and his officers have left for the south
after giving orders for those near Ju-
arez to follow as soon as Gen. Car-
ranza and his staff arrived.

Following is a list of the Constitu-
tionalist officers now on the ground
and the officers who came here with
Villa, to leave tomorrow morning for
Chihuahua, ostensibly to take part in
the battle at Tornasol. Carlos Ochoa,
chief of the national telephone office
in Juarez; Maj. Jesus M. Rodriguez,
judge of the court of military instruc-
tion; and Lieut. Carlos Lopez, secre-
tary; Pedro Masa, collector of cus-
toms; Ponciano Cota, postmaster; En-
gineer Roldanillo Hilar, stamp tax
collector; Ernesto Rodriguez, Direc-
tor-General of Taxes; Lieut. Rafael
Subaran Capmany, Minister of Govern-
ment; Adolfo de la Lanza, major
colonel; H. Perez Alvarez, Chief of the
Information Bureau.

The supreme military tribunal of
the whole Constitutional movement
is established in Juarez in the per-
sons of Gen. Yniguez L. Pequeira,
president; Col. Emiliano Barba, and
Yniguez Palacios, magistrates, and
procurator-general of the government
in military matters is Gen. Ramon
Frausto, who is also chairman of the
commission investigating the Benton
case.

Gen. Frausto's secretary is Lieut.
Col. Calisto Maldonado. Col. Fidel
Avila, is chief-of-arms in Juarez, and
Lieut. Col. Carranza is his chief-of-
staff.

As almost everything worth taking
has already dropped into the hands of
the revolutionists, it is estimated that
Gen. Carranza, when he arrives, will
be confronted with the problem of ob-
taining supplies for his numerous fol-
lowers. Word was received from Gen.
Carranza tonight that he was un-
able to raise a quarter of a million
gold, for the release of his son, since
as the old man's offer to take the place
of the prisoner has been refused, it is
believed that Villa will carry out his
threat. The United States Consul
here and in Chihuahua, have been ap-
pealed to in vain, and nothing more
can be done to save the life of young
Torrans.

Mothers need have no hesitancy in
giving Chamberlain's Cough Remedy
to the little ones. It is perfectly safe.

**MAKE OF YOUR YARD A
BOWER OF ROSES.**

Where Pleasant Sights Will
Greet the Eyes
And Pleasant Scents the
Noses.

Nothing adds so much to the enchantment of Southern California
as the beautiful, fragrant roses, which here grow in rich profusion
throughout the year. Flowers not only enhance the attractiveness of
the landscape, but they radiate gentleness and refinement, beckon to
the great outdoors, and are a source of perpetual joy and delight.

Actuated by an earnest desire to do its utmost to make a success
of the great Flower Festival, which will be held in Los Angeles in 1915,
The Times has made arrangements with the best nurserymen in Southern
California to supply rose bushes to Times patrons absolutely free.
A selection of six distinct varieties will be given to each patron, old or new.

All that is necessary to do to take advantage of this unusual oppor-
tunity to obtain six of these splendid plants, is to agree to take The
Times for six months at the regular subscription price of 75 cents per
month. Old subscribers can procure the plants by agreeing to extend their
subscription for a period of six months.

Do not be an inactive, do-nothing citizen, but display some civic
pride, get in touch with nature, and enjoy the peace and serenity in-
duced by the aroma of blooming flowers.

Additional information relative to the presentation to Times sub-
scribers of six rose plants of rare worth may be obtained by calling at
The Times office or telephoning Main 6300 or Home 10391.

CARRIES PLEA FOR TERRAZAS

Consul Letcher Expected to Con-
vey Instructions from Bryan to Save
Life Threatened by Villa.
(BY A. P. NIGHT WIRE.)
EL PASO (Tex.), March 7.—Consul
Letcher left today to return to his post
at Chihuahua and it is said he car-
ried instructions from Secretary of
State Bryan with reference to the
case of Luis Terrazas, Jr., being held
for ransom by Gen. Villa.

It is said Gen. Villa and Gen. Car-
ranza both will be informed that the
State Department does not but con-
strue the threatened execution of Ter-
razas as indicative of great weakness
in the rebel government of Northern
Mexico.

This information came today from
a rebel official. The official added that
the Carranza commission appointed
to investigate the killing of William
B. Benton was prepared to face any
facts which might be unearthed dis-
regarding to the actions of Gen. Villa or
his subordinates.

"It will not be a whitewash," he
added, "and I ask you to observe par-
ticularly that the assurances given to
Washington on the failure of the Ameri-
can conviction with them."

OF REBEL RAID.**

FORMER REDLANDS RESIDENT
DESCRIBES EXPERIENCE.

Declares Herself and Husband
Were Obligated to Leave Produc-
tive Orange Ranch in Nuevo Leon,
Mexico, Which They Were Twenty
Years in Establishing.

(SPECIAL CORRESPONDENCE.)

REDLANDS, March 7.—Some idea
of what has actually been happening
to Americans in Mexico is gathered
from the story of Mrs. K. H. Stuart,
wife of L. L. Stuart, manager of "La
Rena" orange ranch in the State of
Nuevo Leon, Mexico, who arrived
here this morning to visit her mother,
Mrs. Mary Henry. Mrs. Stuart and
her family have been through some
thrilling experiences.

Last year in May when the Constitu-
tionalists entered the town the
Federals took up a position within a
few hundred feet of the house, the
rebels were occupying, the rebels
also camping within a short distance.
Rebels and Federals helped them-
selves freely to all the live stock
owned by the Americans and other
foreign women were objects of
insults from the soldiers. When it
became apparent that their lives were
in danger, Mrs. Stuart, her mother,
and their little daughter fled under
cover of darkness in a cart drawn by
a burro and succeeded in reaching
Monterrey without orders, and a fearful
accident was narrowly averted.

The trip from Monterrey to the bor-
der was a fearful one. The rebels
miles the track had been torn up by
the rebels and stops had to be made
while it was repaired, soldiers mean-
while picked up the women on both
sides to repel possible attack. Three
hundred miles from Monterrey an ac-
cident was narrowly averted. A
freight engine running at full speed
met the train going in the opposite
direction. Telephone and telegraph
wires being down trains were run-
ning without orders, and a fearful
accident was narrowly averted.

MRS. STUART'S OPINION.

Mrs. Stuart is firmly of the opinion
that American intervention in
Mexico is justified. She says:
"People in the United States and
elsewhere do not know the real con-
ditions in Mexico. If they did they
would be satisfied. I have lived in
that country for almost twenty years.
I don't see how the vacillating Mexi-
cans are going to straighten things
out without the help of this country.

TEJON PASS ROUTE BETTER THAN BEFORE.

Road Engineer Reports That Channel Cut by Recent Storm Makes Highway Selected by State Commissioners More Substantial.

THAT the Tejon Pass route, chosen by the State Highway Commission as the shortest, most direct and most practicable route for the State highway, is in more secure and more substantial condition since the recent storm than before, is the assertion of O. K. Parker, chief road engineer of the Automobile Club of Southern California.

In accordance with its policy of keeping in close touch with road conditions in Southern California, the club asked Engineer Parker to investigate conditions in Tejon Pass. He completed his investigations last night and reports as follows:

"While there has been a considerable washout in Tejon Canyon, yet the very fact that a channel of sixty to 100 feet in width and possibly twenty feet in depth has been formed, makes the State highway route, as selected, more substantial than it possibly could have been before the storm."

"The location of the channel caused by the storm conditions makes it more certain that there can never be damage in the future for it leaves the roadbed itself high and dry above the places subject to washout."

This report by one of the most competent road engineers in California effectively refutes the efforts to discredit the judgment of the State Highway Commissioners by men who have persistently sought in this connection to further their own selfish interests at the expense of the taxpayers.

Despondent. As Revolt.

INSANE FOR LOVE, KILLS HIMSELF.

FORMER ANGELENO DEAD IN NEW YORK HOTEL.

From Papers and Documents Found in His Pocket, Gotham Police Declare Suicide Had Two Friends Living in This City and Had Only Recently Gone East.

NEW YORK BUREAU OF THE TIMES, March 7.—After writing a note saying "I am going insane for love of you and would rather be dead than insane," Edward J. Ryan, formerly of No. 1421 South Vermont avenue, Los Angeles, fired a bullet into his brain last evening at Sleva's Hotel, Seventh avenue and Fourteenth street, where he had just previously registered.

Ryan was found dead on the floor by W. H. Foster, a porter, who went into the room not knowing it had been let. The man had apparently stood before a mirror and held a magazine pistol to his right temple. The weapon was lying beside him on the dresser. With the letter addressed to Mrs. Ryan, was a cutting from the Catholic News on "Broken Friendship." Ryan had underlined the words "friendship is a treasure thing and too precious a thing to be carelessly broken or thrown away. Broken friendship, like broken china, may be repaired, but the break will always show."

From papers found on him, Ryan came recently from Los Angeles, Cal., where he lived at No. 1421 South Vermont avenue, and where he had friends named William Watterston and E. Langen. In this city he had been living at No. 823 East One Hundred and Thirty-sixth street. A ticket showed that yesterday he traveled a gold watch and chain for \$15. In his pocket was \$12.25.

At No. 299 East One Hundred and Thirty-sixth street, Ryan's mother is visiting friends, Mr. and Mrs. James Gaylor. Ryan left there in the afternoon in good spirits. It was said by Mrs. Gaylor tonight that she was to love and insanity could not be understood. Mrs. Gaylor said the young man was not married.

THE ROOSEVELT REJOICE. NEW YORK, March 7.—A son was born today to Mrs. Richard Derby, who was Ethel Roosevelt, daughter of Theodore Roosevelt.

Magnifying Misery Into Joy

Dyspeptic, Stomach Sufferers and Appetiteless People May Quickly Find Relief in Stuart's Dyspepsia Tablets.

When a stomach sufferer gets relief he is one of the happiest of human beings and he looks back at his old days with a distinct feeling of horror.

Stuart's Dyspepsia Tablets quickly react the out-of-proportion stomach and digestive machinery and bring joy of life and love for food to the man or woman who will use them after each meal for a short time.

They correct the faults of the blood and thus at the next meal the body is better able to produce a stronger and more normal digestive juice.

A short use of these tablets will re-establish your digestion, stop gastritis, heartburn, indigestion, foul breath, catarrh of the stomach, and do away with dangerous stomach ulcers and many other unbearable conditions.

Go to your druggist today and begin the Stuart's Dyspepsia Tablet habit. It is the habit of health and appetite. Learn how to learn for food, not how to spurn it.

Obtain a box from any druggist—price 50 cents. Sold wherever you can find a drug store.—(Advertisement.)

FRENCH RAILWAY SHOWS DEFICIT.

Government Road Is Sixteen Millions Behind.

Increasing Salaries Cause Year's Record Loss.

But the Managers Declare Service Is Improved.

PARIS, March 7.—Deputy Albert Thomas, chairman of the Budget Committee of the Western Railroad (Chemins de Fer de l'Ouest), which was bought by the state in 1903, announced a deficit of \$16,000,000 for 1913. The deficit in 1908, under private management, was \$6,500,000. When the state took the road over it was in an exceedingly bad condition, the rolling stock was almost useless and the whole system was disorganized.

In 1911 the deficit was \$12,000,000 and in 1912 it was \$15,500,000. Thus last year's loss breaks the record. The 1913 deficit, however, was caused by increasing the salaries of employees and spending large sums in doubling the tracks, building new stations, extending the lines, replacing old rolling stock and electrifying the suburban lines. The service of the Western Railroad in the last few years was so miserable as to be a standing joke. In 1911 the line had to pay \$1,000,000 in indemnities for loss of goods or for their deterioration because of delayed transit.

Under the new management of M. Clavelle conditions have been greatly improved. Both freight and passenger trains now run on schedule time and last year only \$49,000 in indemnities was paid. The amount paid to other railroad companies for rent of rolling stock was reduced by \$400,000.

TO DISCUSS WELFARE. Next Convention of the Religious Education Association Will Be Held in Buffalo in 1915.

NEW HAVEN (Conn.) March 7.—The next convention of the Religious Education Association now in session, will be in Buffalo in 1915. The subject will be "Child Welfare." This was decided upon today. The delegates also voted to hold an extra summer convention next year at the Panama exposition in San Francisco.

COMPANIES QUIT KENTUCKY.

Glenn Law Has the Effect of Driving Big Fire Insurance Companies from the State.

FRANKFORT (Ky.) March 7.—The Glenn Insurance bill, passage of which by the Legislature is reported to have caused many important foreign and domestic fire insurance companies to notify their agents to cease doing business in Kentucky, became a law today when Gov. McGraw signed the measure. The new law creates a State rating bureau empowered to regulate insurance rates, and provides for a tax of 1 per cent on all fire insurance premiums, the tax being collectible on the basis of the business of the preceding year. The money derived from this tax shall be used to pay salaries and expenses of the rating bureau in its work.

SOTHERN QUILTS SHAKESPEARE. Will Confine Himself to Modern Drama and a Revival of "Lord Dunsinane," and Retire.

DENVER, March 7.—With the close of the performance of "Hamlet" here tonight the stage lost E. H. Sothern as a Shakespearean actor and hereafter he will confine himself to more modern drama, with a revival of "Lord Dunsinane," his father's great success, as the chief vehicle. In formal announcement of this plan here tonight, Sothern declared he will retire permanently from the stage at the end of two years.

Speaking of his Dunsinane revival, which will begin in Kansas City two weeks hence, he said: "I am adding this play to my repertoire partly as a matter of sentiment, out of remembrance to my father, said Sothern tonight. The first time I ever saw my father's face to know it was when he was made up as Lord Dunsinane."

"I am abandoning my Shakespearean work with tonight's performance and I will abandon the stage entirely at the end of the season of 1915. I have been on the stage since 1879 and that is a long career. I am vigorous, but this life without any social phases whatever is wearing on the strongest of men."

LATEST NAVAL JOKE. Coal Passer May Not Be Up in Lindley Murray But He Understands a "Sentence."

WASHINGTON BUREAU OF THE TIMES, March 7.—Here is the first joke to come out of the classrooms of the Danville University, which consists of the educational system installed on each United States battleship by the present Secretary of the Navy, Josephus Daniels:

Kranich & Bach

Grand, Upright and Player Pianos

Are among the very few American-made instruments that are built complete, from start to finish under one roof.

Their quality is the quality that is insured only by generations of reputation building by the same families—it is the uniform excellence obtainable only where pianos are constructed in every detail (not assembled) under one supervising hand.

The name Kranich & Bach on the fall board of an instrument is the buyer's assurance that its beauty and musical qualities are permanent and not of the fleeting, commercial kind.

Before You Buy—Investigate! You cannot, in justice to yourself, afford to consider any other make of a piano until you have at least seen and heard the famous Kranich & Bach instruments. The world's most critical musicians use, endorse and recommend them.

Call or write for beautiful illustrated catalog and prices. Easy terms if desired.

SHIP CAPTAIN INDICTED.
Labor Agent in Seattle Is Also
Involved in the Charge of Shangan-
ing Four Men.
(BY A. P. MONT WIRE.)
SEATTLE, March 7.—Capt. Henry
Bune, formerly master of the Ameri-
can bark Guy C. Goss and now in
command of the cannery ship St.
Paul, E. H. Field and J. T. Kikula,
a labor agent, were indicted by a
United States grand jury today on a
charge of shanghaiing Julian E.
Bryant, John Muller, John Middleton
and James Grady. The accused were
arrested and released under \$3000
bail each. The indictment charges
them with having induced the four
men April 15, 1913, to go aboard the
bark Guy C. Goss under promise
that they were to be given passage
free to Nushagak, Alaska, where they
were to be employed in canneries of
the Northwestern Fisheries Com-
pany.

THE ANTI-TRUST BILL.

Patrick's Day at the Latest.
(BY A. P. MONT WIRE.)
WASHINGTON, March 7.—An effort
to conclude hearings on the adminis-
tration anti-trust bills by March 17
will be made by the House Judiciary
Committee, according to Chairman
Clayton. Several Democratic members
of the committee conferred with the
chairman today as to the general anti-
trust situation and as to the proposal
that tentative anti-trust bills be com-
bined into a single measure for presen-
tation to the House. Some members
have expressed dissatisfaction with the
progress of the legislation and an ef-
fort will be made to hurry the admin-
istration program along.

OF DYSPEPSIA—PAPE'S DIAPEPSIN**

**Digests Food when Stomach
Can't—No Sourness, Gas,
Indigestion.**
You can eat anything your stomach
craves without fear of indigestion or
dyspepsia, or that your food will fer-
ment or sour on your stomach, if you
will take Pape's Diapepsin occasion-
ally.
Anything you eat will be digested;
nothing can ferment or turn into acid,
poison or stomach gas, which causes
Belching, Distress, a feeling of full-
ness after eating, Nausea, Indigestion
(like a lump of lead in stomach),
Heartburn, Water brash, Pain in
stomach and intestines. Headaches
from stomach are absolutely unknown
where Pape's Diapepsin is used. It
really does all the work of a healthy
stomach. It digests your meals when
your stomach can't. It leaves nothing
to ferment, sour and upset the stom-
ach.
Get a large 50-cent case of Pape's
Diapepsin from your druggist, then
eat anything you want without the
slightest discomfort or misery; be-
sides, every particle of impurity and
gas that is in your stomach and in-
testines will vanish.
Should you be suffering now from
indigestion or any stomach disorder,
you can get relief in five minutes.

**"Why Be A
Little Lander?"**

THIS question is asked and an-
swered by F. H. La Baume, Agri-
cultural and Industrial Agent of
the Norfolk and Western Railroad
(Pennsylvania system) in the March
issue of "The Southern Homeseeker."
Here is his answer:

estine—if it had not been based on fun-
damental truth? That truth is many
sided but includes these propositions:
"A little land and a living, surely."
"In buying and selling, men should
work for rather than against each other
—engage in intelligent co-operation."
"Real social equality is only possible
in a community where everybody has
enough, and where nobody has too
much."
"So much land as one individual or
family can use to the best advantage
without hiring help,—that is the sci-
entific and humane unit of land-holding."

"The most universal demand of the
people in the United States today is the
ownership of a home with freedom from
industrial slavery and security against
want. Mr. Smythe evidently realizes this
and the general feeling among the
American people that the cost of living
is too high. I think this is why he became
so thoroughly interested in solving the
problem through the establishing of his
little farms. It is generally conceded
that attempts to make ordinary farmers
of the masses have never been success-
ful—people wearied with the rush, tur-
moil and uncertainty of city life would
be overwhelmed by the isolation and
drudgery of the large farm. It is even
difficult to keep farmers born and bred
in the country, to stay on their own land
and the cry is for conditions that meet
the needs of the farmer. The Little
Landers colonies aim to supply."

**"The Most Wonderful Thing
In All the West"**
Mr. La Baume describes his month's
trip "out through the Southwestern
States, up along the Pacific coast, and
back home over the northern route,"
and says:

The Smythe Lectures
During the past twelve
months William E. Smythe's
lectures on "The Life and
Institutions of the Little
Landers" have become a
feature of the daily round of
events in Los Angeles.
Thousands have heard them;
hundreds have thereby been
converted to the "gospel of the
little lands," and are
now citizens of these col-
onies.
These lectures include the
life stories of many Little
Landers, a discussion of
their economic and social
ways, and the big significance of the move-
ment in renewing, refining and ennobling the
country life of America.

Very naturally, Mr. Smythe describes THE
CHOSEN VALLEY OF THE LITTLE LAND-
ERS, and why it was preferred to many others
that were offered. But—

THE PLACE IS MERELY AN INCIDENT.
Your first question is: "Do I want to be a
Little Lander?" If being a Little Lander
means security of life, fine neighbors, whole-
some conditions for the wife and babies, intel-
lectual growth and opportunity, then of
COURSE YOU WANT TO BE A LITTLE
LANDER.

Lectures every day at 10 a.m. Free. Then,
for those who really care, a delightful auto trip
to one of the most beautiful spots on earth,
that you may MAKE THE ACQUAINTANCE
OF THE PLACE AND THE PEOPLE.

GIRLS! LOTS OF BEAUTIFUL HAIR NO DANDRUFF—25 CENT DANDERINE

Hair coming out! If dry, thin, faded, bring back its color and luster.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No dif-

ference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.—(Advertisement.)

Kidney Disease is Deceptive

Most Cases of Serious Sickness Due to Kidney Disorders Say Medical Experts.

The most deplorable feature of kidney disease consists in its subtle and elusive character, and so insidious are its ravages that many victims do not suspect its existence until the advanced stages have been reached. In nine out of ten cases, the individual thinks he or she is suffering from neuralgia, heart weakness, indigestion, or other forms of disease, when the pain in reality is due to hidden trouble with the kidneys. For many years diseases of the kidneys baffled the skill of medical experts. Since the discovery of Warner's Safe Kidney and Liver Remedy has been afforded to sufferers from this dread malady. Thousands of afflicted men, women and children have been restored to health and happiness and the activities and pleasures of life—many of whom thought their days were numbered, as they had been given up by their physicians. NEGRO POSES AS HINDU MYSTIC.

Gathered in Shells Until Nabbed by Police.

State Board of Health Back of Prosecution.

Banks in Fine Condition, According to Reports

(LOCAL CORRESPONDENCE)

LONG BEACH, March 7.—R. C. Pondexter, a Louisiana "negro," who has been posing here as "Majji Rajji the great Hindu mystic," and getting fat off the fees of credulous persons who believed he could cure almost any of the ills that flesh is heir to, was arrested this afternoon by Long Beach police officers of the State Board of Health. The charge is that Pondexter practiced medicine without a license, and that he used the prefix "Dr." illegally. Strumming on a banjo almost constantly, the African "Hindu" languishes in the City Jail while hundreds of his "patients" are thunderstruck over his finish.

Dr. E. A. Sommer, deputy of the State Health Board, has been working up evidence against the huge negro for some weeks, being assisted by Miss Minnie C. Edmonson, and Mrs. Ella Bennett, both of Los Angeles. The women detectives received "treatment" from Majji Rajji for headaches and throat trouble.

Miss Edmonson averred that she had throat trouble, and the "great Hindu mystic," dressed in the garb of a native of India, turbaned and swathed in brilliant-colored garments, told her he could cure her. He swathed her head in a towel and began to blow too fragrant breaths upon her throat. Then he took hold of her arms and began to massage them. Miss Edmonson called a halt at this juncture, and Pondexter said:

that it would cost her \$50 for "mystic" treatment. He assured Miss Edmonson that he was looking for another wife, and that he thought she would surely do. "Majji Rajji" had his headquarters at No. 230 West Broadway, formerly occupied by Dr. R. W. Frier and his "Church of the New and Fractious Psychology."

In the rooms occupied by "Majji Rajji" the police found sixteen diagrams, most of which were declared forgeries by the inspector. Scores of amulets and charms, labelled in price from 50 cents to \$5, were found in boxes. These the "mystic" sold to his credulous victims for warding off all dangers. Part of his wardrobe consisted of thirty-two coats, seventeen pairs of trousers, twenty-two shirts, four silk hats, and turbans, boots and shoes, and women's aprons by the dozen.

That Long Beach banks are in excellent condition was shown by the statements issued by the five national banks and one savings bank, as a result of the rather unexpected call of the Comptroller of the Treasury. The total deposits this morning were \$7,734,165, an increase of \$161,392 over the money deposited in the previous morning. The resources today were \$9,492,773, an increase of \$177,732 over January 16.

The deposits in the several banks this morning were as follows: Long Beach Savings Bank and Trust Company, \$1,751,567; National Bank of Long Beach, \$1,598,758; First National Bank, \$1,243,758; Exchange National Bank, \$1,118,169; City National Bank, \$776,141.

Real Republicans continue to put the Progressives in the shade in local registrations. Until this year, Long Beach was the pride of "Hiram's" heart, as the Progressives were more numerous than any other party. Today they are running a race with the Democrats for second place in the registrations. There are 3432 Republicans registered, 2023 Progressives and 1844 Democrats. The Progressives must muster 568, and the Socialists only 312, while 659 refuse to state their preference.

George Mortimer Roe was elected president of the City Club at its annual meeting last night. Other officers elected were first vice-president, Lynn W. Ballard; second vice-president, Ed H. Wallace; secretary, Walter H. Case; treasurer, R. F. Tucker. The feature of the meeting last night was an address, entitled "How Can a Community Find Civic Betterment," by John J. Hamilton, of Des Moines, Iowa.

RECEIVES HEAVY DAMAGES.

Visalia Woman Awarded Twelve Thousand Dollars for the Death of Her Husband.

VISALIA, March 7.—Mrs. Anna de Fehr of Orad was awarded damages in the sum of \$12,000 against the Santa Fe Railroad by a jury in the Superior Court late last evening, the award being made as the result of an action brought by Mrs. de Fehr to recover \$40,000 for the death of her husband, killed by a Santa Fe train in December, 1911.

The death occurred at a crossing in Orad, evidence being brought to show that the train which killed de Fehr was being run at excessive speed and that box cars on a siding obstructed a clear view of the tracks.

PISTOL STOPS BLACKMAILERS.

GROVER FIRES AT AGENT OF MYSTERIOUS RING.

Italian Grocer, Threatened in Note Signed With a Cross, Turns Tables on Man Who Calls to Collect \$1000 Demanded—Names Suspect in Report to Police.

A black hand plot to maul Calisto Tutto II Mondo, Italian proprietor of a grocery store at Avenue Twenty and North Broadway, of \$1000, which first came to light about four weeks ago when Mrs. Tutto II Mondo received a cross-signed note demanding that the money be placed under a pillar of the Ninth-street bridge, came to a near-climax last night when the courageous grocer made a faint at handing over the coin to the alleged agent of the ring, and, instead, drew a gun with which he fired four times at the would-be collector, who ran away.

Tutto II Mondo told Officers White, Cahill and Buist of the East Side station last night that the man who demanded his money is Joe Latoma, of No. 519 South Avenue Twenty-one, and the officers made a search for him. The grocer says he is certain of his man.

According to the story, Tutto II Mondo tells Latoma entered his store about 7:30 o'clock last night, called the grocer outside and said he had been sent to collect the \$1000 demanded of him in the note a month ago. He asked that the grocer follow him down the street.

Tutto II Mondo complied with the request. At Avenue Twenty and North Broadway, the grocer told the police, he stopped. The man, who he says is Joe Latoma, stopped, too. He asked that the required money be handed over. The gang had waited long enough.

Tutto II Mondo threw his hand around to his hip pocket, as if to draw out a wallet. Instead he drew a pistol. He fired four times, but Latoma had seen the flash of the pistol and had started running. He went to the East Side Station and reported the matter.

When Tutto II Mondo's wife about a month ago received the cross-signed note, asking that \$1000 be placed under a pillar of the Ninth-street bridge, Detectives Glenn and Stevens of Central Station watched the proposed cash under the bridge all during the stated night on which the money was to be placed there. A huge envelope, containing much paper, was placed in the cache. But the alleged blackhanders did not come to claim it.

Tutto II Mondo is known to be a quiet, industrious, and estimable representative of the Italian colony. His frugal habits and business acumen have resulted in his amassing considerable money. This, he believes, has aroused the envy of some of his countrymen, who have hit upon the mysterious method as the best way to get some of it. That some of these are members of Italian secret societies, he feels sure. Latoma, the man who he says came to his store last night, has no cause for any grievance against him.

EL SEGUNDO.

(LOCAL CORRESPONDENCE)

EL SEGUNDO, March 7.—An application will be made to make El Segundo a port of entry, by the Standard Oil Company, so that vessels plying to and from foreign ports may do business here, without calling at Redondo or San Pedro for clearance papers. This move is due to the fact that the company not only once was fined \$500 because the captain of one of the vessels came direct to El Segundo wharf from South American ports. This not being a port of entry, hence the fine. Following this warning, a second fine was imposed when another of the company's yachts made the same mistake. He also should have stopped at a port of entry to get customs papers, and then to docking at El Segundo wharf. Delayed foreign shipments are now awaiting the arrival of several tank steamers, which will be sent principally to the Orient and this not being a port of entry makes it inconvenient and expensive.

WOMAN BEATEN BY ALDRIDGE

Police Investigating Fracas in Downtown Cafe.

Bruiser Knocks Down Three, Including Manager.

Action Likely Tomorrow by Officer Concerned.

"Bill" Aldridge, the Venice fight promoter, added to his record for "beating up" when he ran amuck in McKee's Cafe, No. 518 South Spring street, early Friday morning, and knocked down a woman and two men.

The police were called in, but refused to make arrests because no one in the cafe was injured.

Yesterday the affair was taken under investigation. Sgt. L. L. McClary stated that he will likely take some action tomorrow.

"I am not at all satisfied with the way that case was handled," he said. "If the statements of various witnesses are true, Aldridge ought to be prosecuted, and I think I shall take some action Monday."

HUNT RIVER BED FOR MISSING LAD.

GLENDALE SEARCH DEVELOPS NO SIGN OF SMITH.

Locket Found in Jenkins Home Explained by Woman, Who Says Another Bumble Adorns Watch Chain—Charge of Skeleton in Third Degree Denied by Detectives.

Searching the river bed and the hills around Glendale, a large force of officers yesterday failed to find trace of the missing body of John William Smith, who disappeared six weeks ago from the home of L. S. Jenkins at Glendale.

While a large posse was on the trail of the body Glendale citizens were excited over the developments of the mystery, and a paper printed there carried a sensational charge that Lee Jenkins, the lad who lived with Smith at the Jenkins home, had been subjected to a third-degree examination in the District Attorney's office, during which a skeleton was displayed before his eyes.

Other humiliating methods were resorted to, it was charged by the paper, but Detective Louis Duni, who conducted the examination, said that the police had no such treatment had been accorded young Jenkins.

Chief Herald called at the Jenkins home early yesterday and demanded the golden locket, which is the latest of Smith's possessions to be turned up.

Jenkins explained to the chief that Smith had two lockets, one of which he wore on his watch chain, the other he gave to Clara Jenkins, the daughter. The locket was turned over to the District Attorney with other possessions of the missing lad.

Yesterday it became known that a woman telephoned the police that she knew the whereabouts of Smith. She stated that Smith had left Los Angeles for San Francisco and had there purchased a license to go into the laundry business. Later she said, he went to San Diego, and stopped at the Grant Hotel.

No record of the license was found in San Francisco, and no John William Smith had stopped at the Grant Hotel at San Diego, the management informed The Times yesterday.

Chief Herald has enlisted a small army at Glendale and today the whole territory around the Jenkins home, where the boy lived, will be given a thorough combing.

STREET IMPROVEMENTS.

San Pedro Man Makes Report Showing That Improvements Are Being Rapidly Made—News Briefs.

SAN PEDRO, March 7.—John J. Goldsworthy, formerly Deputy City Engineer in charge of the San Pedro office, and now manager of the San Pedro Improvement Association, has made a report upon the status of street improvements that have been initiated here.

Petitions for the improvement of Nineteenth street from Pacific avenue to Leland street and Eighteenth street from Center to Leland street will be placed in circulation next week. Plans have been prepared for the improvement of Meyer street from Fifth street to Seventh. The improvement of Seventh, Eighth and Ninth streets has been held up pending the completion of work on Pacific avenue in order that new grades may be established.

The ordinance for the improvement of Sixth street has been in the hands of the City Attorney since February 21. The improvement of Pacific avenue from Twenty-sixth street to the westerly city limits is held up for damage waivers. Plans are being prepared for the opening and paving of a boulevard on Terminal island from the Eighth street landing to the pier of the Pacific Wharf and Storage Company.

NEWS BRIEFS.

The police officers on Front street were requested today to keep a lookout for Wolf Luman of Los Angeles, George Luman, No. 751 Broadway, today notified the department that his brother had departed, leaving a note saying that he was coming to San Pedro and commit suicide by jumping in the ocean. Incoming cars were searched, but no trace of the missing man was found.

Mrs. F. H. Byram of the Juvenile Probation Court of Los Angeles gave an interesting talk yesterday at a union meeting of the Parent-Teachers' Association of San Pedro on the work of her department.

"Keep your girls off motorcycles," she said. "Don't allow them to go joy riding at night unchaperoned. The usual causes of juvenile crime are joy riding, drinking, picture shows and lack of home training."

A MOWING DOWN OF PRICES ON FINE PIANOS & PLAYER PIANOS!

Greatest Stock of Costly Instruments in Southern California in Merciless Sacrifice for Quick Sale

As to Some of the Pianos, the Prices and How to Pay.

Practically every piano and every player piano, famous in American piano-making, is to be found in this sale. The Bush & Gerts, the Decker, the Heaton, the Kimball and many other makes of pianos, and the Player Pianos de-luxe, the now famous Bungalow player pianos, Kimball Acme-odile player pianos and many others, all the highest grade instruments, positively no finer to be had.

I now offer for only \$320, the best made player pianos, standing four feet nine inches high, with all latest improvements, the kind for which ordinarily \$700 has to be paid. For the plain styles, I will take \$285. The \$300 and \$1000 fanciest player pianos are reduced the same as the less expensive instruments.

See our highest-grade, strictly warranted, four feet five and one-half inch uprights in latest Colonial designs, with every up-to-the-minute improvement, on sale now for \$193. This, too, is less than cost; much less than half price. Other new pianos warranted makes, for only \$135, \$115 and some for \$95. Everything else at corresponding reductions, and on very easy payments, which any home can make. We'll take \$1 a week.

Depend upon it that all our instruments are marked at heretofore unheard-of low prices.

We must vacate our premises at once. There is no time to lose. We shall sell tomorrow a couple of Krnich & Bachs, Hardmann, and Ivers & Pond Pianos for \$85 each. The larger and more elaborate styles for \$139 Old Style Pianos, \$35 and \$55.

See our regular \$500 to \$550 uprights now for less than half price. See our beautiful player-pianos at less than cost to make them. All on sale with music free.

All the elegant grand pianos at less than half price. Pay us as best suits your convenience. It's not a question of cash or profit with us, but we want to immediately get rid of our stock and store. If you have any possible use for a piano or player-piano come at once. No such opportunity ever presented will ever come again in Los Angeles.

Remember, every instrument in this sale, whether piano or player-piano, or grand piano, is backed by the famous Eilers guarantee, in addition to the manufacturer's guarantee. A. H. EILERS.

The stock is undoubtedly the largest in Southern California, nearly every make is here. All of the Nations most renowned names will be found among the pianos in this sale. You tell us what prices you wish to pay and we will give you a piano for it. \$35 gets a playable old style piano. For \$85 we will give you choice of Ivers & Pond, Hardmann, Krnich & Bach and many other used uprights.

PEEVISH, CONSTIPATED CHILDREN

LOVE "CALIFORNIA SYRUP OF FIGS"

Harmless "fruit laxative"

cleanses stomach, liver

and bowels.

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad, has stomach ache, sore throat, diarrhoea, full, cold, give a teaspoonful of "California Syrup of Figs," and in just a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels and you have a well, playful child again.

You needn't coax sick children to take this harmless fruit laxative; they love its delicious taste and it always makes them feel splendid. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups. Beware of counterfeiters sold here. Get the genuine, made by "California Fig Syrup Company." Refuse any other kind with contempt.—(Advertisement.)

SERUM INJECTION

FATAL TO FOUR.

DIE AFTER TREATMENT WITH FAMOUS SPECIFIC.

Patients at County Hospital Are Victims—Toxic Change in Tubes of Specific Said to Have Been Cause of Fatalities. After Consultation of Physicians.

Four patients died within the space of three hours at the County Hospital last night after having been injected yesterday with scientific doses of Neo salvarsan, formula No. 214.

The men who died, all long afflicted with a dread disease, are Jules Saurins of No. 704 East Eighth street, John S. McLean of No. 614 South Hope street, Charles McLean of No. 4012 Pasadena avenue, P. J. Mason of the El Elmo Hotel, this city.

The change in the serum is not understood. It is believed it was a change that could not be detected by test. The cause could not have been the heat, as the tubes are kept at a continual temperature of 55 deg. fahrenheit.

A full report of the whole case will be sent at once to Dr. Paul Ehrlich, who is in charge of a great sanatorium at Frankfurt-am-Main, Germany, discoverer and sole distributor of the serum.

The proceeds from the sale of the serum has been turned back into Ehrlich's experimental laboratory. As originally brought out it was called "formula 604." Since the first serum was put out, many experiments have been made and the original formula much modified.

According to the physicians at the county institution, the four men who died have been under treatment for several weeks. All have had previous injections of the stuff. Yesterday's injection was but a part of the treatment.

Hundreds of other patients have been inoculated during the past few years at the County Hospital with this serum. There have been isolated cases of deaths, but these were always thoroughly understood.

The four deaths last night form a most interesting case in the history of the famous formula and its use. That the deaths were particularly due to the two tubes used and not to any inherent quality of the formula as such is the firm opinion of all those who attended last night's consultation.

EAGLE OFFICER

IS ARRESTED.

CHARGED WITH ROBBING HIS EMPLOYER'S VAULT.

Following Wrecking of Door to Wholesale Produce Company's Office in Great Falls, Mont., Police Accuse Head of the Local Lodge With Complicity.

(BY DEWITT WHEAT—RECEIVED DISPATCH.)

GREAT FALLS (Mont.) March 7.—Following the wrecking of the door to the vault of the Lindsay Wholesale Produce Company's office in this city last night the police today arrested William H. Hopt, president of the local Aerie of Eagles, and for eleven years an employee of the company robbed. The arrest of Hopt came as the climax of a series of incidents followed each other in rapid succession.

First, Hopt and Paul Kimerle, accused jointly with robbery, were seen to stop in First Alley South at 3 o'clock this morning by a plain-clothes officer. Shortly thereafter the officer found where the men had stopped a cash box wrapped in paper. Then a trailing of the pair developed further evidence and followed the discovery of the burglary last morning. Hopt and Kimerle were locked up.

They are charged with a chain of evidence that will result in the conviction of the prisoners. After wrecking the vault the cash obtained was only \$11.25. Hopt has been a leader in the Eagle lodge and has a reputation for honesty and truthfulness and his arrest caused a big sensation in the city.

ONTARIO MISS HEIRESS TO FAMOUS CREMONA VIOLIN.

LOCAL CORRESPONDENCE.
ONTARIO, March 7.—If all cherished dreams come true—if the traditions of a family dating back for more than a century are found to be well fortified by facts, and finally if the so-called musical talent which makes it possible, little Catherine Dilworth, 7-year-old daughter of Mr. and Mrs. H. Hamer Dilworth of this city, and granddaughter of the late Mrs. Catherine Hamer Dilworth of Seattle, Wash., will be the fortunate possessor of a genuine Joseph Antonius Guarnerius violin, an instrument which it is said many of the world's most famous musicians would give their left hand to possess, and she herself may become a world celebrity in music.

The violin is at present locked in the safe deposit vaults of a Seattle bank and before the old Cremona "fiddle" can come into the hands of little Catherine, the usual proving and settling of the estate, which, it is said, will run into tens of thousands of dollars, must be gone through with.

The violin has been seldom brought to light, a more fascinating story than that yielded by the filing of the last will and testament of the late Mrs. Dilworth, a pioneer of the West and a world traveler.

When a quarter of a century ago, Mrs. Dilworth was left a widow, she had accumulated sufficient to enable her to indulge her passion for two things—travel and the playing of her violin, which she always believed to be a genuine product of the unsurpassed Joseph Antonius, the greatest of the Guarneris, whose magical words, "Del Gesù," are inscribed on its body.

STRANGE ANIMAL LIFE IN SAN JACINTO AREA.

LOCAL CORRESPONDENCE.
SAN JACINTO, March 7.—Strange birds and animals found in the San Jacinto area of Southern California is the subject of a recent report of the Museum of Vertebrate Zoology in the University of California.

Among the discoveries made by Dr. Joseph Grinnell, director of the museum, and Harry S. Swarth, was that of the grasshopper sparrow, which has never been known to nest so far south as the San Jacinto Mountains, and the gray vireo, another little-known bird, and one supposed to be found principally in Arizona, was discovered to be a breeding bird in a very narrow strip of grassland in the San Jacinto range. Unlike the other vireos, this species loves the dry chaparral belt. Two nests were discovered: The female sits very close when the eggs become incubated, in one case allowing the naturalists to touch her head and bill and finally to pick her bodily off the nest.

GRIZZLIES EXTINCT.

Grizzly bears were found to have been utterly extinct since 1890. The species formerly found here was the largest grizzly that ever lived in North America. Grizzlies were a constant menace to the cattle of the first settlers in the mountain valleys, so they were shot, trapped and poisoned on every available spot.

A tiny, mole-like, insect-eating animal, the desert shrew, was discovered at the base of the mountains. Although usually found in the desert, the shrew family are dwellers on moist and cool stream banks, this species seems to thrive under the dry and arid conditions prevailing in the Southern California deserts.

Persons who have been on the desert and have studied the activities of the antelope chipmunk often wonder how the animal could move about in

San Bernardino County Assessor Among Favored.

Redlands Woman Loses Jewels on County Highway.

State Fish Hatchery for Bear Valley Proposed.

LOCAL CORRESPONDENCE.
SAN BERNARDINO, March 7.—County Assessor F. P. Messerve of Redlands is expected to resign his office immediately, effective probably not until July, as a result of his appointment as traveling auditor for the collector of income taxes in Southern California, announced by Secretary McAdoo.

LOCAL CORRESPONDENCE.
The job carries a salary of \$1000 per year, with traveling expenses and mileage, and is one of the new positions growing out of the creation of the income tax. Messerve will report to John P. Carter of Los Angeles, collector for the fourth. He will probably not leave until after the volume of the assessment work, which started this month, is over, because a change in the head of the office might complicate things. Messerve was appointed two years ago following the death of Assessor H. E. Wilson. It is not known who is slated as his successor.

LOSERS JEWELS.
The police of several cities are instituting a search for about \$1000 worth of diamonds and jewelry lost in the highway between Redlands and San Bernardino. It is believed that a car containing them bounced out of a machine. The gems are the property of Mrs. Lucy Painter of Redlands and her sister, Mrs. G. H. Scott of Philadelphia. When they went back over the road, the empty bag was found where the finder had taken it after extracting the valuables. The loss includes a diamond horse-shoe pin, pearl necklace, earrings and other jewelry. Mrs. Painter lost a quantity of valuables in almost the same manner.

STATE FISH HATCHERY.
A movement that embraces San Bernardino county has been started here by local sportsmen for the placing of a State fish hatchery in Bear Valley, recognized as the greatest fishing ground in Southern California. Millions of fish are lost every year because there is no provision made to take care of the spawn. Resolutions favoring such a project were passed by the local sportsmen's association through the local directors, Fred C. Drew and John H. Fisher. It is expected that a particular expedition will be organized to capture the fish. A greater part of the money that supports the State Commission, will join in the movement.

NEW SPECIES DEVELOPING.
Much information of scientific importance is recorded. For example, the authors bring out the fact that the study of different kinds of animals at the margins of their habitats enables one at the present time to see practically the species in the making. At all stages in the development of new kinds of animals seem to be in evidence. Presumably, prolonged exposure to different states as they may be observed in nature may be expected to contribute to that problem of problems in biology—the origin of species.

NEW THEORY.
It has been very commonly thought that the number of different kinds of animals, say of a certain group in a given place, was dependable evidence as to where the group first came into being on the earth. This assumption has been overthrown by the study of this paper, who show, for example, that the number of species types that can live in the cold zone on a mountain top is proportional to the area of the mountain mass in question, and is not dependable evidence as to the center of origin to which the species came.

Knocks Motion-Picture Actress Inhabitable, But Takes Nothing From the House.

STRANGER RANSACKS HOME.
Mrs. Madeline Baghart, a motion-picture actress living at No. 2213 E. 11th street, Glendale, was attacked in her home yesterday afternoon, while her husband was downtown. The man who entered the house without ringing, but did not appear to be a burglar.

STRANGER RANSACKS HOME.
She was found by her husband early last evening, her arms tied behind her back with telephonic wire, a cut upon her head and unconscious. The house had been ransacked by the intruder, but nothing was taken.

STRANGER RANSACKS HOME.
When the woman revived she told her husband that she was at the telephone in the hallway when she first saw the man. He was coming towards her leisurely. She dropped the receiver of the telephone and was unable to move. He then grabbed her by the throat and threw her against the door, rendering her unconscious and causing the gash upon her head. Otherwise she was not injured. He then tied her hands and proceeded to look through the house.

Sanatorium Completed.

Upland, March 7.—The new Mennonite sanatorium, for the treatment of tuberculosis, and which is located in the high foothills to the north of Altus, La., is now open. This institution, has been built by and is under the direction of the Mennonites of North America, and the location of the hospital here was decided upon after mature deliberation. For a time, local physicians will be in charge of the sanatorium, while the entire management is in the hands of Rev. J. S. Hirschler and Jacob J. Schwalter, both of Upland. Beautiful and impressive services marked the dedication of the new building.

Handsone Spanish type hotel to be built at once in the new Imperial Valley town of Niland.

The building will face the main boulevard looking toward Salton Sea. It will cost \$40,000 and will be completed and ready for occupancy in about three months. A complete system of heating and refrigerating will modify extremes in temperature and make the building comfortable every day in the year. Frank L. Stiff of Los Angeles is the architect.

Transformation.

NILAND CITY TO GROW OVERNIGHT ON DESERT.

Newest Imperial Valley Town, Destined to Become an Important Agricultural Center, Stands at Gateway of World's Richest Valley, at Railroad Junction Surrounded by Fertile Lands.

WITH MAGIC brush, the hands of commercial and agricultural progress are about to paint with one swift stroke on the gray canvas of the Colorado Desert, a city of booming industry, with water, electric lights, telephone and telegraph and all the appurtenances of a model, progressive California business center.

When special trains with 300 people, from this city, and with several thousand from Imperial Valley points, reach Niland next Saturday morning, they will be in time to witness the actual starting point of the "Inevitable City" which is to spring, mushroom-like, at the junction of the main line of the Southern Pacific and the Imperial Valley branch line—at the gateway of the new south-western empire whose matchless soil and climatic conditions have been the agricultural wonder of the century.

With leading business men, bankers and ranchers, in attendance, the new city of Niland will have its beginning next Saturday morning. Not before then will a lot be sold. Not before will the city have any population. But the two days opening will begin the transformation which must soon result in one of the most important agricultural centers in Southern California.

On next Saturday and Sunday, the town of Niland will be thrown open to the public, and the coming of the waters of the Colorado through the whole fertile expanse of 490,000 acres is entering upon a period of development and expansion. It will astonish even those who are familiar with the amazing possibilities of soil and climate there.

The Imperial Valley Information bureau at No. 110 West Sixth street has secured much accurate and necessary data and is providing a substantial aid to the many strangers who desire to know of the new southwestern empire.

For the information of inquirers the bureau has recently secured from Col. W. H. Holabird, receiver of the

California Development Company, expressions of opinion concerning the value of land, water conditions, etc., in the valley. Because of Col. Holabird's long experience and intimate knowledge of valley conditions his opinions are regarded as valuable and useful.

Col. Holabird says: "REAL VALUES HIGH. 'The values of all lands are determined by the immutable law of supply and demand,' the 'demand' being governed by the scarcity or abundance of supply of undeveloped lands and the intrinsic value which controls the wise, and by a speculative value which actuates or controls the speculative buyer."

"The culture of the soil, or the method of farming in Imperial Valley has shown marked improvement since the first settlement twelve years ago. The net results from many of the crops exceed \$25 per acre, some crops yielding more than \$100 per acre net, everything depending upon the 'man behind the plow.' Even by leasing the land, 8 to 12 per cent. upon a valuation of \$250 per acre is not uncommon."

"Not very long ago, through the courtesy of a neighbor who passed the winter in Egypt, I entered into correspondence with the Secretary of Agriculture of the government of Egypt. In reply to my question 'what is the selling value of lands under irrigation in Egypt?' the writer stated: 'Lands under irrigation sold for \$450 to \$550 gold, with a safe average of \$500 per acre, gold.' 'It should be understood by all who read or who travel, that there are no more cheap lands. By that I mean, vacant lands at \$1 to \$10 per acre, that period is gone never to return. In the meantime the population of the earth is rapidly increasing. This means higher-priced lands, smaller farm units and intense cultivation."

"This conclusion cannot be successfully disputed, so I regard the price fixed by the owners of the Niland tract as not too high."

"It is safe to predict that there will be several towns or cities in Imperial Valley with as great a population as Fresno, Bakersfield, Stockton and other cities of that class, but unfortunately all of the districts from these cities lands will soon sell for \$200 to \$500 per acre; outside that radius \$150 to \$200 per acre. Making the total annual discharge of the Colorado River figures up an enormous quantity, sufficient if all could be used, to irrigate millions of acres, but unfortunately all of the discharge of the Colorado River cannot be used. The area that can be irrigated, the year around is determined by the amount of one of the uncooked leings and spread it over the sponge cake, which she served and

"The first baked yesterday was a sponge cake and as all Mrs. Hafner-Ginger's cakes 'turn out' it was a splendid success. The grain was light and the cake not a bit tough. The class was told that the most common mistake in making sponge cake was mixing the flour in too rapidly. The warm air of the oven drives out the cold air you have folded into 'your cake' and the uncooked leings and fillings are made. Such a saving of time and labor as these uncooked leings will prove to many. She demonstrated the mixing of one of the uncooked leings and spread it over the sponge cake, which she served and

Then the cookies were mixed and a number of them 'dressed up' for company. Bits of candied cherries, strips of green angeline, and halves of

has shrunk to a minimum of 2500 cubic second feet, and like the chain whose strength is its weakest link, so the ability of the Colorado River to supply water is determined by its normal low water discharge.

In brief, there is water for 400,000 acres in Imperial Valley and 240,000 acres in Lower California, and no more.

"In Imperial Valley this area is bounded arbitrarily by the 'east high line canal,' and the west side main canal, the receding shore of Salton Sea east of the west side line of Water Company No. 2."

Cake and Coffee.

"THE TIMES" SCHOOL OF DOMESTIC SCIENCE.

THOSE who failed to attend the cooking class at The Times School of Domestic Science yesterday afternoon missed a sweet time. It was sweet in every way. First the cake which Mrs. Hafner-Ginger baked of course did not lack in sweetness, likewise the fruit cookies, the delicious coffee which was served with the cookies, was sweetened if one wished it; the class was in a most happy mood, and fired questions right and left at the instructor lady, and she was sweetest itself in the pleasing way she answered every query, so altogether it was an afternoon of compliments.

First several of the ladies present told of testing some of Mrs. Hafner-Ginger's recipes, and while giving her a bouquet or two gave themselves also, for good measure, so everybody was happy. "I made a carrot pie like the one made last week," Mrs. Hafner-Ginger said a bright young housewife, and it was simply fine. My neighbor said I was a splendid cook, whereupon another of the new cooks told how the baked cabbage which she served for a dinner to some New England friends, had made such a decided hit, that she had been called upon to tell everybody present just how she had baked this splendid dish.

The first baked yesterday was a sponge cake and as all Mrs. Hafner-Ginger's cakes 'turn out' it was a splendid success. The grain was light and the cake not a bit tough. The class was told that the most common mistake in making sponge cake was mixing the flour in too rapidly. The warm air of the oven drives out the cold air you have folded into 'your cake' and the uncooked leings and fillings are made. Such a saving of time and labor as these uncooked leings will prove to many. She demonstrated the mixing of one of the uncooked leings and spread it over the sponge cake, which she served and

Then the cookies were mixed and a number of them 'dressed up' for company. Bits of candied cherries, strips of green angeline, and halves of

blanched almonds worked wonders with the plain cookies. On all sides exclamations followed the artistic way in which the different shaped cookies were decorated.

"I have made cookies for years," said a motherly old lady, whose pleasant face made one imagine her happy baking cookies and tarts for the youngsters, "but I have never fixed them up any. I can't wait for Monday to try the new kinds," and her eagerness caused a ripple of mirth.

When the cookies were ready to serve, Miss "Paprika," Mrs. Hafner-Ginger's attractive daughter, wearing a pink rose that just matched her cheeks and apron, tucked over one ear, poured the delicious coffee, which had been made in one of the new "tricolators," which had been sent over for demonstration by the Parmelee-Dohrmann Company. It was something new in the way of percolating coffee, and every housewife present had to be "shown" just how the coffee was made. Still, coffee, or as it is to be known soon, Howard's Stoll coffee was used and the result was a rich aromatic coffee that was as good as it was.

The new tricolator has this attractive feature, it costs so little that it is within the reach of all. Another of the new items which the instructor lady had found in the course of her investigation of the different household departments, was a glass measuring cup with a handy lip for pouring out the contents. This, as all housewives know, will save many a spotted mixing table.

Perhaps, the best information which Mrs. Hafner-Ginger gave her class yesterday was the way in which a number of uncooked leings and fillings are made. Such a saving of time and labor as these uncooked leings will prove to many. She demonstrated the mixing of one of the uncooked leings and spread it over the sponge cake, which she served and

SUMMARY OF THE DAY.

A further conference was held yesterday between the Harbor Commission and railroad officials to advance the plans for the municipal harbor terminal. It is possible that all details will be worked out within two weeks.

The Civil Service Commission yesterday announced two examinations during March for numerous municipal positions.

The Fire Commission yesterday gave a vote of confidence in Fire Chief Eley, after it had filed a series of questions submitted by C. E. Furgason, which he wanted the commission to ask Eley.

It developed at the City Hall yesterday that there is to be a lively contest over the effort to secure a vacation of twenty feet of Yale street for a length of 550 feet. This part of the street is eighty feet wide and instead of consenting to narrowing to sixty feet, property owners will ask that the entire street be made eighty feet wide.

A lawsuit, in which a pioneer oil man, now dead, is defendant, and which involves placer oil claims, is one of the assets of his estate, and will probably realize \$50,000, if the mineral exceptions are sustained by the Supreme Court.

At the City Hall.

BIG TERMINAL PLANS PROGRESS.

TRAFFIC ARRANGEMENTS AND OPERATION DISCUSSED.

Further Conference Between the Harbor Commission and Railroad Officials Brings the City Nearer Realization of Great Project for Handling Its Port Commerce.

A further conference was held yesterday between the Harbor Commission, President Shoup of the Pacific Electric Company, Vice-President Platt of the Southern Pacific, and their attorneys, Karr and E. J. Foulds, for the purpose of working out details for the municipal harbor terminal. Good progress is being made, and these conferences are to be continued until a definite plan of details is accomplished. The next conference will take place Tuesday forenoon.

The general territory to be included in the municipal harbor terminal has practically been decided upon. This was accomplished at a conference that was held on Friday. At yesterday's meeting the subjects of traffic arrangement and operation were discussed and numerous details were agreed upon.

The physical operation of the terminal traffic is a subject that is left entirely within the jurisdiction of the Harbor Commission, but it is quite probable that the Pacific Electric will be the company depended upon for operation.

There will be no raise in rates, the terminal charges being included in the line haul. A division of the rate between the three parties at stake—the city, the Pacific Electric and the Southern Pacific—will be based upon the proportion of property which each party places in the use of the municipal terminal.

It is possible that practically all details will be worked out within the ensuing two weeks.

CONFIDENCE

IN THE FIRE CHIEF.

The peculiar document sent to the Fire Commission by C. E. Furgason, in which he submits twenty questions which he desires the board to require Fire Chief Eley to answer, was received yesterday. No specific charges against Chief Eley are made by Furgason.

The commission voted to file the document and then passed a vote of confidence in Chief Eley. It also decided that it is willing to consider any properly filed specific charges, but that they must be submitted in regular form as direct charges if they are to meet with any consideration.

MORE CITY JOBS.

EXAMINATIONS ARE CALLED.

The Civil Service Commission yesterday issued notices of examinations for municipal positions to be held on March 21 and 23. The list is as follows:

March 21—Draftsman, topographic, departmental service, \$75; instrument man, departmental service, \$91; chairman, departmental service, \$65 to \$70; draftsman, architectural, departmental service, \$3; draftsman, structural, Harbor Bureau, \$180; fruit and vegetable inspector, health department, \$110.

March 23—Right of way agent, Public Service Commission, \$200; operator, Fire Alarm Bureau, \$100; assistant, asphalt worker, street department, \$78; asphalt worker, street department, \$3; assistant steam engineer, water department, \$100 to \$120; supervisor, departmental service, \$104 to \$142.

Applicants must be American citizens and residents of Los Angeles. Applications must be on file in the office of the commission at least five days prior to the date of examination.

Does Away With Constant Drugging

Frutola Is Taken in One Dose And Results Are Quick And Positive.

There are times when the heroic doses of our grandmother's days are still necessary, and that is especially true of biliary colic, or hepatic colic, as it is also known. The layman will recognize it by severe pains that start at the margin of the ribs on the right side and extend to the shoulders and entire abdomen. There may also be vomiting and chills and fever, and the pains, as the hardened bile stones pass from the gall duct into the duodenum, are agonizing beyond words.

Simple laxative and "liver medicines" will do little good, and even operations are not always successful, or necessary, as is proven by those who have tried the proper method. Mr. Robert Struck of 1316 Jefferson

For application blanks and further information apply at the office of the commission, No. 294 Exchange building.

Lively Contest Here.

One of the warmest contests that have occurred lately regarding street changes is scheduled to occur when the Council committee hears the proposals of the plan to vacate a strip twenty feet in width on Yale street, from Bernardo street northward for 200 feet, the street is only sixty feet wide. It is proposed to make the entire street only sixty feet.

Vicious objection is to be raised to the proposed vacation of the twenty-foot strip, and instead, it will be proposed that the entire street be made eighty feet wide. The street connects with a tract of city land back of the old Catholic cemetery that may be utilized for park or other municipal purpose some day, and it will be an important thoroughfare to the tunnels if widened to eighty feet, say the proponents of the wider highway.

Fire Line Badges.

The Fire Commission yesterday officially adopted the design for the new fire line badges provided for under a recently adopted city ordinance. The badge is in form of a shield, at the top of which appears the city seal. Then follows the name of the officer or the newspaper holding the badge, and the number of the badge and the words "Fire-Police Line Pass." The badges are to be of silver, with the name of the officer or newspaper in red enamel and the other lettering in black. Secretary McKee was instructed by the commission yesterday to secure the badges immediately.

New Engine Houses.

Plans have been prepared by the building department for engine house No. 33, to be built at No. 244 West Florence avenue. The estimated cost is \$12,000, but only \$10,000 has been appropriated by the City Council. The Fire Commission yesterday approved the recommendation of Fire Chief Eley that certain items be eliminated so as to reduce the cost of the appropriation. A house of similar design to the present one at First and Reno streets under this year's appropriations.

Aid for Library.

Librarian Perry, on behalf of the Public Library Board, yesterday applied to the City Council for an appropriation of \$112.44 for support of the Arroyo Seco branch library for the remainder of the present fiscal year. This would be the proper portion of the one-tenth of the cost of this library, which the Council agreed to provide each year for maintenance. The library was opened on February 27. The Council sent the request to the Finance Committee. It is a moot question whether the money shall be provided out of the general fund or whether the Library Board shall be required to provide this money out of its regular appropriation.

Still Asks for More.

Notwithstanding the friendly, cooperative ruling of the Finance Committee of the City Council that no more new positions shall be created during the present fiscal year, the request for the payment of salaries, the Civil Service Commission yesterday asked for the creation of a new position of assistant stenographer. President Whiffen voiced his objections, declaring that he had taken the subject up personally with the secretary of the commission. It was referred to his committee for recommendation.

Municipal News Notes.

The City Council has referred to its Finance Committee the request of the Grand Army of the Republic for an appropriation of \$300 to assist in defraying the expenses of a proper celebration of Memorial Day.

The City Council has had a change of heart as to the importance of bathing. Recalling it denied the request of the Playground Commission that it be allowed to expend \$1600 in putting into shape the public baths at Vignes and Ducommun streets. Now it has decided that this may be done as the commission has funds at hand for such a purpose.

The City Council went to San Pedro yesterday afternoon to make a general inspection on the progress of the wharf construction. Some time was given to a survey of the wharf construction and the subject of siting the wharf was discussed. It was decided by which a proper diversion of the storm waters can be made.

The Moneta Avenue Improvement Association sent to the Fire Commission yesterday a request that the commission ask the Public Service Commission to order an extension of the water mains on Moneta avenue from Slauson to Manchester avenues before the street is paved. A movement is on foot to get all public utility pipes and conduits laid in the street before it is paved.

Inspector Backus is preparing plans for an engine-house on the east side of Vermont avenue, between Sunset and Fountain avenues. The money for this building has been appropriated and work is to begin within the next thirty days.

Fire Chief Eley yesterday reported to the Fire Commission that during the past week there were forty-five fires, of which thirty-five were false and in ten cases there was no loss. The total fire loss is estimated at \$24,000.

The City Engineer has recommended that the Board of Public Works place O. W. Peterson in charge of the Arroyo de la Brea storm sewer and other similar municipal projects. Peterson was in charge of the Grapevine division of the Los Angeles aqueduct construction.

The Board of Public Works decided yesterday that Slauson & Triest must complete their contract for the construction of Municipal Wharf No. 1.

street, Kansas City, Mo., writing for his wife, says that Mrs. Struck had these symptoms to a very marked degree, and after a long period of suffering was persuaded by a friend to take Frutola, a California remedy made for just these symptoms. She passed several hundred stones in all, which both she and Mr. Struck are convinced were gall stones, and she is now entirely well ever since.

There is no argument that can be advanced that is half so convincing as the testimony of honest folks who have tried Frutola, and there are hundreds who have had even more remarkable experiences with Frutola than Mrs. Struck. Many have prevented jaundice by its use, many chronically constipated, whom no ordinary laxatives would benefit, have found permanent relief from the pushing out that Frutola gave them. This excellent remedy is prepared only by the Pinus Medicine Co., Monticello, Ill., for whom this is published, and can be obtained at any drug store with full directions for use.

COURT TO DECIDE IF RICH OR POOR.

PIONEER OIL MAN'S WIDOW LEFT PECULIAR LEGACY.

Small Estate If Judgment's Against Her and Comparative Wealth of the Wife—Young Wife Refused Divorce Because She Took Joy Ride—Damage Suit of Shoemaker.

The estate of Burdette Chandler, a pioneer oil man, who died February 17 last, will prove valuable in the event that a suit covering oil claims is decided in his favor. The will was filed yesterday by his widow, M. E. Chandler, who receives the small estate, consisting of real property, and through an administrator will represent her dead husband in the litigation.

Placer oil locations were made by him on land patented under grants to the Southern Pacific, which contained mineral exceptions. The suit of Roberts against the Southern Pacific is pending in the Supreme Court involving entries on land patented to the railroad for mineral exceptions.

Chandler died on 168 acres near Whittier and the Central Oil Company brought suit against him and R. R. Armor to quiet title. This action is pending in the Superior Court and covers the same question raised in Roberts's suit. If the mineral exceptions are sustained by the Supreme Court, Chandler's estate wins, and, according to his attorney, judgment, while prospective, may amount to \$50,000.

The heirs-at-law are the widow, Mrs. Hattie Carver and Mrs. Alice Forsyth, sisters, and Ira Chandler, a brother.

"DEAD SOLDIERS."

LEAVE JUDGE IN DOUBT.

R. C. Ridgway told his young and attractive wife, Pauline, to leave home and she did and brought suit for divorce on that ground. There was a reason for Ridgway being so harsh, and this reason developed during the trial of the suit before Judge Monroe.

Ridgway complained that Mrs. Pauline went out with other men. One was called and while in a manner he protected the young wife, in other ways he outlined the story of a joy-ride in which Mrs. Ridgway, himself and another couple figured.

Mrs. Ridgway was asked to accompany this man and his friends, but before she consented, she wanted to know what her husband was going to do. He said he proposed to stay at home. She went on the little escapade, and as showing its convivial nature six bottles of beer and a quart of port wine were bought.

Mrs. Ridgway said she did not drink any and she was sure the other party did not. Hence the court surmised it must have been absorbed by the young men, which, in the eyes of a temperate man, was some kind of a libel and remain gentlemanly. A convenient spot near a schoolhouse at Whittier was selected to rest the automobile and to drink the beer and port wine in comfort.

Judge Monroe decided Mrs. Ridgway was not entitled to a decree of divorce. He said she was not drawing his own conclusions as to the perfectly proper outing of the young persons.

SUIT CONTINUED.

DEFENDANT IS ABSENT.

The mystery of \$500 worth of unset diamonds placed for safe-keeping in the care of a pair of shoes by Sophia Wentworth of Thirty-fifth place and Normandie avenue, which shoes were alleged by her to have been sent to George Johnson, a shoemaker, to be repaired, was not cleared up yesterday when Judge McCormick tried the case. Mrs. Wentworth for malicious prosecution was tried by Judge McCormick.

Mrs. Wentworth failed to appear and defend the case. Attorney W. W. Widaman testified that she had admitted to him Johnson was the shoemaker the shoes had been sent to. Johnson was arrested May 13, 1913, charged with stealing the diamonds, held in \$1500 bail for examination and discharged when Mrs. Wentworth failed to prosecute the case.

He testified he had not seen the shoes and produced corroborative evidence. Judge McCormick continued the case until Monday afternoon for further evidence.

LEGALLY "FRISKED."

WIFE GETS THE MONEY.

J. D. Larsen explained to Judge Monroe yesterday that he and his wife could not get along together, and after she had him arrested for failure to provide for his two children, he said that was a dishonest trick which would allow him to live with her again. Mrs. Larsen's side of the story was that he would not buy her clothes.

By a series of questions Judge Monroe discovered that Larsen had \$12 in his pockets and he ordered him to turn the money over to his wife. He also ordered him to pay her \$5 a week, continuing the case until May 8.

ALL DAY AND NIGHT.

TOOTHACHE QUESTIONED.

The All Night and Day dentists, charged by Walter H. Pettinelli with alleged malpractice, were not represented in the trial yesterday, and after hearing the evidence of Pettinelli and examining several dentists, Judge McCormick took the case under submission.

Pettinelli sued for \$5000 damages, alleging that by reason of an operation on his teeth September 5, 1913, he had lost his teeth and was suffering from the gums developed. Some of the dentists testified the work was bad and others said the gums were good, showing signs of healing, but admitting that the work might have been better.

COURT PARAGRAPH.

PROCEEDING IN BRIEF.

DAMAGE JUDGMENT. A jury in Judge Wilbur's court gave judgment yesterday to the plaintiff for \$2500 in the \$20,000 damage suit by J. V. Terry against the Southern Pacific for injuries received when he fell into a pit at the Southern Pacific roundhouse. He was employed as foreman of the boiler shop and alleged negligence on the part of the corporation.

CAPITAL SHOWS ITS CONFIDENCE

Another First-Class Hotel Under Consideration.

Eastern Money to Be Paid in Los Angeles.

Half-Million Is Ready for Oil Development.

Big business brings Col. W. H. Cochran, attorney and hotel owner of Philadelphia and New York, to Los Angeles. He has secured headquarters at the Alexander Hotel, and will be busy engaged for a night—then for a little and for a pleasure of the Southern California. For one thing, Col. Cochran is as the representative of Philadelphia and the Petroleum Company into a \$1,000,000 corporation. He said today:

Col. W. H. Cochran, of Philadelphia and New York, on two important business matters.

He is reorganizing the Pacific Petroleum Company and is looking for the opportunity for a new development hotel.

that the company, which owns 100,000 acres of land in Ventura and Kern counties, will spend \$1,000,000 in improvements, beginning in the near future.

Col. Cochran's other business is to look over the field for the Alexander Hotel in Philadelphia, half a dozen other large hotels in the East and Middle West, and considering giving to Los Angeles other first-class hotels.

Col. Cochran is president of the Continental Hotel, and a member in other hotel companies. He has expended \$400,000 in building the famous old hotel, which entertained every President of the United States from Lincoln to Cleveland.

Ex-Senator S. W. Dorsey is agent of the Pacific Petroleum Company, organized about one year ago. He went East in 1910 and interested powerful business men in developing the properties.

"Senator Dorsey in his life has accomplished a remarkable feat. He has organized a powerful financial transaction," Cochran said yesterday. "It is the most important thing that has happened in the oil business since the discovery of the oil in the Los Angeles basin."

"The oil business is a very difficult one. A group of business men in Philadelphia put up the Pacific Petroleum Company, and Senator Dorsey and his associates have been working for the past year to develop the oil in the Los Angeles basin."

"At the present time we are in the process of developing the oil in the Los Angeles basin. We have a large amount of money ready for investment, and we are looking for the right place to develop it."

TO CONSERVE FLOOD WATERS AT SOURCE.

Engineers Say Storm Freshets Can Be Prevented From Damaging Valleys and Silted Channels and Be Used for Future Use in Irrigation by Spreading Debris Cones and Gravel Beds.

BY R. BRINSMEAD.

once they have left their precipitous mountain courses and reached the valleys, the debris cones and gravel beds there encountered so readily absorb the water that it is only when in great volume and flowing rapidly in narrow channels that it can carry across to flood the lower lands.

The methods of control, briefly stated, include the construction of smaller dams across the washes, built high enough to form behind them settling grounds for the onrushing, silt-laden flood and spillage this water evenly over their entire widths, to be scattered over the gravel beds below in small streams, where it will rapidly sink out of sight.

It has been proven that the gravel washes found in the debris cones throughout Southern California are capable of continuously absorbing from five to fifteen cubic feet of water per second (from 500 to 600 inches) per acre. Rough calculations, made February 23 last, at the spreading grounds of the Tri-County Irrigation Committee in the wash of the Santa Ana River, showed that even on land covered with cactus, sage and other growth, from 250 to 350 inches per acre was being absorbed. One thousand acres of suitable spreading ground will then care for a flood of from 250,000 to 350,000 miners' inches.

In the case of the San Gabriel River at least 5000 acres of spreading grounds are available, while the maximum flood over a period of twenty years did not exceed 500,000 inches. Similar conditions prevail in the case of other large washes, that of Lytle Creek, where a maximum of not more than 500,000 inches came down the last storm; of the Santa Ana, where approximately the same amount of water was reached during the same flood or storm, and with few and comparatively minor exceptions, the available spreading grounds are amply capable of caring for any flood waters during the heaviest of storms.

ESTIMATED COST. Fredley estimates the cost of controlling the flood waters of the San Gabriel River by the above methods, and of sinking the waters in the upper gravel beds, at not to exceed \$10,000,000, including the complete control of the entire river at time of flood; of the Cajon and Lytle Creek washes at from \$15,000 to \$25,000, and of the Santa Ana River above Redlands at little more than the latter sum.

Flood damage in Southern California, by these methods, can be entirely eliminated. The silting of harbors and channels could be prevented and great extensions in present irrigated lands produced by reason of the additions to existing water supply.

THE MOVEMENT. Some fourteen and fifteen years ago, Fredley, C. E., of Riverside, conceived the idea of the flood waters of the San Gabriel River and the upper gravel beds of the river and streams, which had been failing for several years to heavy pumping.

He organized a number of experiments in the spreading of flood waters, and so far as is known, he was the first to do this work. This was the first time that the spreading of flood waters was done in the three states of California, Riverside, and San Bernardino, and so far as is known, he was the first to do this work.

A real flurry has been created in New York by the announcement of Homer D. Call, the new State Treasurer, that he will not discharge any of the duties of the office until he has been elected by the voters of the State. The announcement was made in a letter to the editors of the New York Times, and it was a surprise to many people, as Call was widely known as a Republican, and the office of Treasurer was generally considered to be a Republican one.

Call was elected to the office of Treasurer in 1912, and he has been in the office since that time. He is a member of the New York State Bar, and he has been active in the Republican party. He is a well-known figure in New York politics, and he has been a strong supporter of the Republican party.

The announcement that Call will not discharge his duties until he has been elected by the voters of the State, is a significant one. It shows that Call is a man of principle, and that he is not willing to accept the office of Treasurer without the approval of the people. It also shows that Call is a man who is not afraid to stand up for his beliefs, even if it means that he will not be able to perform his duties for a short time.

The announcement has caused a great deal of discussion in New York, and it has been widely reported in the newspapers. It has also caused a great deal of speculation as to whether or not Call will be elected by the voters of the State. It is likely that Call will be elected, as he is a well-known figure in New York politics, and he has a strong following in the Republican party.

The announcement is a good one, and it shows that Call is a man of principle. It also shows that Call is a man who is not afraid to stand up for his beliefs, even if it means that he will not be able to perform his duties for a short time.

those who tested it pronounced it almost equal to a cooked frosting.
The pink and green table, which was shown by Bullock's was a real masterpiece, with sketches of this mischief maker on the place cards, and some of his followers (in couples of course) seated in close embrace, slithered against pink moons. The pink moons carrying out the color scheme of the artistic table.
Tuesday afternoon Mrs. Haffner-Ginger had promised her class, instructions in real Italian dishes. Not Spanish recipes for she says there is much difference between the Spanish and Italian cooking, but genuine Italian cooking. She has been on a quiet-search for some time to secure certain Italian seasoning and told the class yesterday that she would give them Italian recipes that they would not find in books.
The time cooking class meets on Tuesdays, Thursdays and Saturdays of each week in the big auditorium on the second floor of The Times Building at First and Broadway, and every housewife is cordially invited to attend the lessons, which are free.

Sweeps Away Romance.

(Continued from First Page.)
the slightly suburban regions tributary to Los Angeles. The property itself boasts every variety of topography and soil, and is capable of the most diversified improvements.
NOW FOR DEVELOPMENT.
That part of the holding adaptable to immediate marketing will be divided as rapidly as the work can be carried out, according to J. J. Davis, vice-president of the Santa Monica Land and Water Company and one of the men who played a big part in the upbuilding of the Palmdale and Santa Monica Canyon districts.
"No time will be lost by Mr. Fleming in developing the more accessible portions of the property he has just bought from our company," said Davis last night. "Several days ago, when it became practically certain that the deal was going through, Mr. Fleming engaged G. C. Fierce, a New York engineer, who had a great deal to do with laying out the present-day Santa Monica developments, to handle the engineering end of his subdivision project.
"Later on, when the first part of the work is well under way, the rugged hill land of the middle and upper parts of the Rancho San Vicente is to be opened up with well-constructed highways and subdivided into private estates of from five to 100 acres each in extent. These will have perpetual residence restrictions.
HUNDREDS OF MILES OF ROAD.
Before the new owners are through with their operations, hundreds of miles of splendid drives and boulevards will have been opened throughout the property, making every part of it accessible. Fleming and his associates are the kind of men who do not do things half way, and I look to see a permanent and beautiful development of the old grant lands up to the very edge of the San Fernando Valley. The improvements definitely in sight will make the projected construction of a highway through Topanga Canyon the next obvious step in the good roads movement in Southern California. As the result of the assured expansion of the residence area above Santa Monica, the compact building up of all the eighty tracts around the Palmdale and Santa Monica Canyon within a short time is made a foregone conclusion.
A large volume might be filled with the countless interesting and romantic incidents associated with the ranches that are now about to pass into history. The main part of the property has changed hands just three times, first, on December 28, 1859, when Juan B. Alvarado, Mexican Governor of the Department of California, granted to Francisco Sepulveda "four square leagues of land, more or less, known by the name of San Vicente and Santa Monica" on September 3, 1872, when the heirs of Francisco Sepulveda transferred the holding to Col. Robert S. Baker for a consideration of \$55,000, and yesterday, when Fleming and his associates closed their epochal \$2,100,000 deal.
IN OTHER DAYS.
In 1874 John P. Jones, United States Senator from Nevada, bought an undivided three-fourths interest in the property, paying a consideration of \$162,500, showing that real estate was wont to jump even in those days.
In October, 1875, Senator Jones built the Los Angeles and Independence Railroad into Santa Monica, a line that afterward passed into the possession of the Southern Pacific. The existing reminder of that company's effort to establish the harbor of Los Angeles at Santa Monica, and make of it a great terminal is to be seen in the famous old Long Wharf just above Santa Monica Canyon.
In 1878 Col. Baker placed all his interest in the property in the name of his wife, Arcadia de Baker, who had held it jointly with him. Mrs. de Baker, a member of one of the oldest of the Spanish families of the Southland, died two years ago.
Prior to receiving the lands by grant from Gov. Alvarado, Francisco Sepulveda had occupied them without questioning or molestation for more than a decade, having settled upon them immediately after emigrating from Sinaloa to the then frontier of the North. This fact was to serve him in good stead in later years, his title to the holdings was called seriously into question.
A TITLE FIGHT.
In 1862 Sepulveda appeared with a large number of witnesses before George Fisher, secretary of the Board of Commissioners appointed by the United States government for settling land claims in California, and defended his claim to the property. He swore that he had entrusted his title papers to representatives of Gov. Micheltorena to settle a dispute about a part of the land and that not even by persistent search and inquiry had he ever been able to recover them. He brought out the fact that after the loss of his papers he had lived in undisputed possession of the land until 1848, and that in 1846 Pio Pico, constitutional Governor, had given him a new grant.
Hundreds of depositions were taken from both the Sepulvedas and their friends and the other claimants and officials, Mexican and American, of the old and new governments, by the government court at San Francisco finally rendered its decision in 1854, following the death of Sepulveda, awarding to him some 28,000 acres of the property under dispute. As it was Sepulveda's debt to Francisco Marques and Pedro Reyes a large additional acreage he had been contending for and was rather severely called to task for his lack of respect for the "rights of others."
In his will Francisco Sepulveda left to apparently favored heirs cattle and sheep instead of land, gauling the

Kid Gloves 50c
Values up to \$2.00
Monday 9 to 10

An odd lot of high grade kid gloves, most of them fine French kid with two clasps at the wrist. Overseam and pique stitching. In black, green, blue, red and a few other colors. All sizes in the lot. Some of them slightly disfigured. Many of them originally priced at \$2.00. On sale Monday from 9 to 10 a.m. only, on a Bargain Table, Main Floor—50c a pair. None will be exchanged.

The Biggest Millinery Bargains We Ever Offered

Spring Hats Untrimmed and Demi-Trimmed

A late spring in the East has proven disastrous to manufacturers of millinery. One of the largest operators in the country approached us, offering an enormous quantity of untrimmed and demi-trimmed hats at less than half the price at which they were manufactured to sell. Although the lot was enormous, the price was so tempting that the deal was consummated and the hats are here now. They go on sale at just two prices. New spring hats that are worth \$2.95 to \$5.00 for \$1.95 each. And hats that are worth from \$5.00 to \$7.50 at \$2.95.

\$3.95 to \$5.00 Spring Hats \$1.95

Spring shapes of hemp, close-fitting styles, three of the models illustrated on the left. Some have crowns of silk poplin, many of them edged with velvet. Also black taffeta hats of the Fluffy Ruffles variety. A good presentation of colors, including navy and new blue, brown, tan, tango, purple, mahogany, etc.

\$5.00 to \$7.50 Spring Hats \$2.95

Nobby spring shapes, medium and close-fitting styles, three of the models illustrated on the right—some with silk crowns, some with double-pleated maline around the crown. A vast variety. Colors include navy and new blue, brown, tango, purple, green, gray, taupe and black. Every one new and stylish.

A Wonderful Offering of Spring Suits \$16.90

One Hundred of Them, Values Up to \$35

The cleverest, choicest, most attractive and best lot of new spring suits we've ever shown for anything like the money. They are samples from three of the best-known makers of New York, scarcely two alike. Materials include silk poplin, broadcase, crisp crepe, serge and novelty suitings. Smart short coats in draped and tailored styles. Minaret, poptop and side drap skirts. Colors include tango, leather, wild duck blue, navy, plum, pansy, russett, etc. Sizes from 16 misses' up to 44-inch bust measure. Values as high as \$35.00. On sale at \$16.90.

Moire Silk Dresses

Like Picture On the Right \$10.95

New dresses of silk moire—just like the picture on the right. Flounced and frilled. Blouse waists have fancy vests of white silk crepe, deep yoke extending in point over dropped shoulder. Colors include pearl gray, violet, brown, lavender and Copenhagen, also black. Sizes from 16 misses' up to 44-inch bust for women. Worth almost double. A supreme value at \$10.95.

This Pretty Golf Coat Is Priced at \$7.50

The Golf coat pictured on the left is one of the most popular garments we have shown this season. They come in combinations of black and white in block, diamond and broken checks; also in novelty mixtures. Made with draped back caught with straps, buttoned. Dropped shoulder and ripple flounce. Size from 14 misses' to 38 bust for women. A superlative value at \$7.50.

The Newest of Spring Coats

There has never been a time in the history of the coat business when styles, colors and materials used in coat making were as varied as now. Our stock is being augmented daily with shipments from the leading trade makers of New York. We are showing striking coats for street, dress and evening wear at prices ranging from \$7.50 up to \$35.00. Every coat a model of style and every price ticket marked lower than it should be.

Some Suits Worth \$27.50

On Sale at \$10.75

Just a small quantity of pretty tailored suits in pebble chevrons, wide wale diagonals, serge and pin stripe sponge. Three-button cutaway coat, both plain and trimmed. Skirts plainly tailored or draped. Most of these are dark colors. Sizes from 14 misses' up to 44-inch bust measure. Values as high as \$27.50. On sale Monday at \$10.75.

Tailored Waists \$1.39

Smart tailored waists of linen, seersilk and pique. Detachable collar and small watch pocket. Also lingerie waists in both high and low-necked effects. Lace and embroidery trimmed. Sizes from 24 to 44. Values up to \$2.25. These will be on sale Monday, while the lot lasts, at \$1.39.

Evening Gowns and Party Dresses

Soiled During Fashion Show. Values to \$25.00, 9 to 10

A small lot of evening gowns and party dresses of chiffon and charmeuse, some with shadow lace drapes. No two alike. Good practical styles and none of them very badly soiled. You'll have to take advantage of this offering. Dresses worth up to \$25.00. Monday, 9 to 10 a.m.
